At the conclusion of these educational sessions, participants will be able to:

1. Examine the roles of technology, revised guidelines, and emerging evidence based scientific research and clinical trials in the management of patients.
2. Recognize strategies for an accurate diagnosis to reduce costs, improve relationships between patient and physician(s).
3. Apply new approaches to provide high-value care, reducing unnecessary tests/intervention, and practicing new therapeutics and health IT functionalities prescribed in meaningful use regulations.

Summary of Financial Disclosure: All planners, reviewers and presenters have nothing to disclose or the conflict has been resolved.  
Commercial Support: No commercial support provided.

Accreditation Statement: Michigan State University is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.
