Message from the Chair:

The Department of Medicine continues to be a source of pride to the College of Human Medicine. The report for 2016 captures the successes that the Department has achieved through the hard work of our faculty, students, and staff.

Scholarly Activities

The Department of Medicine Seed Funding (DSF) rolling Request for Application (RFA) was posted on the Department's website on September 1, 2016. The RFA is open to all faculty members at the MSU College of Human Medicine and encourages the submission of high-quality proposals that involve innovative and pilot work.

Message from Vice Chair for Research

The Department of Medicine has established 2 vibrant collaborative writing groups (manuscripts and grants) to increase scholarship productivity. The writing groups provide motivation for productivity by cultivating readiness, support, and guidance as well enhancing interaction. These groups prepare and produce manuscripts and grants.

Prominent Publications

Residents continue to be highly engaged in scholarly and research activities with over 30 peer reviewed journals and were engaged in multiple international, national, regional and local presentations. Our fellows and residents are producing presentations.

Awards

The Department of Medicine has established 2 vibrant collaborative writing groups (manuscripts and grants) to increase scholarship productivity. The writing groups provide motivation for productivity by cultivating readiness, support, and guidance as well enhancing interaction. These groups prepare and produce manuscripts and grants.

50th Anniversary of Occupational and Environmental Medicine

The Department of Medicine Seed Funding (DSF) rolling Request for Application (RFA) was posted on the Department's website on September 1, 2016. The RFA is open to all faculty members at the MSU College of Human Medicine and encourages the submission of high-quality proposals that involve innovative and pilot work.
